FOAMSKIN COATING COLOR SWATCHES

COLOUR SWATCHES FOR FOAMSKIN COATING

Based on our technology we will match the indicated NCS, PANTONE and RAL colors as precise as possible. Minimum color differences for every production batch are unavoidable. You may demand us to produce a sample first, at the cost of €150,- (shipping included) per sample

Of course "WE LOVE COLOR", but just be aware that not all people appreciate color. our products need cleaning and respect from people. Lighter colours need more cleaning and more caution than darker colors; This is why we split up our range into "contractsafe" colors and the rest of our range. Up to your choice!

CONTRACT SAFE COLOURS

NCS: S6010Y10R

The prices are calculated with the idea that that everything is done in one color. Once you require an additional color within an order, you must add a color change. We charge a small additional fee in the future per color, to be applied from the second color. This is regardless of the number of pieces per color.

The prices for this color change is mentioned at the end of the price list.
